REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable because the prior art does not teach or reasonably suggest a fuel system interface for a gas turbine engine for receiving electrically and/or mechanically originated over-speed signals, a shutoff valve for stopping engine fuel flow in response to the over-speed signal received, and based on pre-defined priority selection logic to prevent the rotor from over-speeding, wherein the priority selection logic relates a plurality of different gas turbine engine operating conditions to the over-speed signal, and provides that when the fuel system interface is activated, as a result of receiving an over-speed indication, fuel flow is only initiated when the over-speed signal is removed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry relating to patent applications in general should be directed to the Patent Assistance Center at 1-800-786-9199.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Kocz, Jr. whose telephone number is 571-272-4830. The examiner can normally be reached on M-Th; 7:30-4:00.
